A sultry evening of jazz and summer sizzle

## THE FB POCKET ORCHESTRA

The FB Pocket Orchestra takes its listeners back to the days of hot jazz, blues, ragtime and popular dances, with their cool and confident sounding music. They have no trouble in capturing the genres of the 1930s, the 1920s and even earlier. In their discography you can clearly hear the glamour and style of these eras. It is atmospheric, yet vibrant, and these two qualities together combine to make great music, meaning that the FB Pocket Orchestra are perfect for almost any social environment.
